Ref.: Call for the Bidding for Asian University Championships in 2020 and beyond

Dear friends,

We are pleased to invite bidding submission for Asian University Championships (AUCs) in 2020 and beyond. Should your federation/association be interested in organizing a championship in 2020 and beyond, you are welcome to send in your application.

According to AUSF sport calendar, the following list of compulsory sports will be attributed in even and odd years respectively:

Even Year (5 events) (2020, 2022 ...)	Odd year (4 events)(2021, 2023 ...)
Basketball 3x3	Basketball 3x3
<i>Football (attributed to China already)</i>	Beach Volleyball
Basketball	Badminton
Taekwondo	Karate
Table Tennis	

In the hope to speed up the cultivation of AUSF brand-name events and marketing exploration, we would like to invite the member federation to give the priority to the compulsory events. Once the compulsory events have been attributed, the bidding for the optional events will be taken into consideration.

The project submission should be sent back to the AUSF secretariat before **10th April 2019**. Please refer to the enclosed **BIDDING GUIDELINES** for details. The complete application will be submitted to next AUSF Executive Committee Meeting to be held in Macau, China on **18th April 2019**.

In addition, to better fulfill the educational function of university sports, AUSF has now introduced a mandatory AUSF-NUSF Workshop during all AUCs, which should be at least

a half-day program to promote knowledge sharing and interaction between the athletes, coaches and technical staffs. This date/timing of this workshop must be factored into the overall schedule of the AUC.

Should you have any queries, please feel free to contact the Secretariat.

We would like to thank all members for your support to Asian University Sports movement and AUSF.

Awaiting the pleasure of receiving your bids soon.

Kenny CHOW
AUSF Secretary General
